Just a few quick thoughts on the OPP update. I think it'll be important to highlight that this product is species specific, i.e., does not affect all mosquitoes in the treatment area.

Subject: Oxitec EUP Comms

Good Afternoon Eric and Wiebke,

First thank you both so much for your continued help this morning as we work to prepare these comms for Alex. You both have been so fast and responsive. You guys are fantastic to work with on communications!

I have the first draft of the OPP Update (with quotes) and back pocket Qs and As. Please let me know what you think. After your review Mike will be next before Bob and Anne.

I'm hoping to get these to Alex by COB today in preparation for the Mon. FRN release.

Isabella
